

HOW TO CREATE A CUSTOM USB!

1

Send us an image or artwork of the object or logo you want made...

2

We then send you a virtual proof of what the flash drive will look like...

3

Then 3 weeks later we deliver a very cool Custom USB ...

How Simple!

I know this sounds too easy to be true...but it really is this easy! We have designers and concept people all located in North America, all English speaking and fluently versed in the finer points on how to create a custom flash drive.

The best way to start is to have good art or a great picture of what you want to create. We take it from there!

For more information contact us at 1-888-908-1481 or e-mail us at sales@USBCustomFlash.com

"We make your vision a reality"
